TECHNICAL SKILLS

Programming

- Python
- SQL

Web Technologies

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Bootstrap
- Responsive Web Design

Core CS Concepts

- Data Structures & Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Database Management Systems (DBMS)

Tools & Platforms

- Git
- GitHub
- Firebase
- VS Code
- Version Control (Git)

Other Skills

- Problem Solving
- Logical Thinking
- Team Collaboration
- Adaptability
- Time Management

EDUCATION

Pragati Engineering College

B.Tech – Computer Science
Engineering
2024 – 2028

CGPA: 7.7/10

EXPERIENCE (INTERNSHIPS)

Prompt Engineering for AI Virtual Intern

Jan 2026 – Mar 2026

- Learned and applied prompt engineering techniques to design effective interactions with Generative AI models.
- Explored real-world use cases and optimized prompts to improve model outputs.
- Developed a strong understanding of AI tools and their practical applications.

Android Developer Virtual Intern

Oct 2025 – Dec 2025

- Gained hands-on knowledge of Android application development and mobile UI design.
- Worked with core Android components, layouts, and user-friendly interfaces.
- Built and tested features to understand app architecture and development lifecycle.

Data Engineering Virtual Intern

Jul 2025 – Sep 2025

- Explored data engineering concepts including data collection, processing, and storage.
- Worked with data processing, storage, and analytics concepts.
- Understood ETL pipeline basics and data analysis techniques.

PROJECTS

GlobalGrad – AI-Powered Study Abroad Platform

[Live Link](#) | [GitHub](#)

Developed an AI-powered study abroad platform that helps students compare universities, explore countries, and receive personalized guidance for admissions, scholarships, and career planning.

Tech Stack: React.js, Tailwind CSS, Firebase, JavaScript

Chronova – Luxury Watch E-Commerce Platform

[Live Link](#) | [GitHub](#)

Designed and developed a premium luxury watch e-commerce platform with responsive UI, product catalog, advanced filtering, and modern user experience.

Tech Stack: HTML, CSS, JavaScript, Bootstrap

Campus Issue Reporting System

[Live Link](#) | [GitHub](#)

Developed a web-based campus issue reporting system that enables students to report, track, and monitor complaints while improving communication between students and administration.

Tech Stack: HTML, CSS, JavaScript, Firebase

Personal Portfolio Website

[Live Link](#)

Designed and developed a responsive personal portfolio website showcasing projects, certifications, internships, technical skills, and professional achievements.

Tech Stack: HTML, CSS, JavaScript

CERTIFICATIONS

IBM

- Enterprise Design Thinking Practitioner
- Responsive Web Page Development
- Data Classification and Summarization Using IBM Granite

Meta

- Introduction to Front-End Development
- Programming with JavaScript
- Version Control
